

FOR IMMEDIATE RELEASE:**Arkema-ArrMaz Supports Lourenço Jorge Public Hospital as Part of “Health in Our Hands” Project**

The company donated computers to the hospital to support the initiative, which aims to reduce public hospital ICU infections by 30 percent

(São Paulo, SP) December 20, 2021 – Arkema-ArrMaz, an Arkema Group company and a leader in the development of special materials, donated computers to support the participation of Lourenço Jorge public hospital, located in Barra da Tijuca, Rio de Janeiro, in the project “Health in Our Hands: improving large-scale patient safety in Brazil,” an initiative led by the Institutional Development Program of the Brazilian Unified Health System (Proadi-SUS).

Arkema-ArrMaz's Brazil operations donated two computers to the hospital to support orientations, visits and courses delivered in digital format to the hospital's intervention team and tutors, as well as data processing and report generation for the program.

“The donation will facilitate the team's participation in training courses and virtual meetings, improving communication as well as the management of report data, which must be sent to the tutor hospital,” said Dr. José Alfredo Cavalcanti Padilha, general director of Hospital Lourenço Jorge. .

Leandro Rocha, managing director of Arkema-ArrMaz Brazil added, “Arkema-ArrMaz is honored to support such an important health initiative that is critical to the well-being of our local community. The success of the “Health in Our Hands” project will benefit us all.”

The “Health in Our Hands” project aims to reduce hospital infections occurring in ICUs of public facilities by 30 percent, increasing patient safety on a large scale. The Proadi-SUS' project is a public-private initiative signed by the Ministry of Health, in which a group of private hospitals offer a series of training courses and guidance for professionals in the public sector.

About Arkema-ArrMaz

Building on its unique set of expertise in materials science, Arkema offers a portfolio of first-class technologies to address ever-growing demand for new and sustainable materials. With the ambition to become in 2024 a pure player in Specialty Materials, the Group is structured into 3 complementary, resilient and highly innovative segments dedicated to Specialty Materials - Adhesive solutions, Advanced Materials, and Coating Solutions - accounting for some 82% of Group sales in 2020, and a well-positioned and competitive Intermediates segment. Arkema offers cutting-edge technological solutions to meet the challenges of, among other things, new energies, access to water, recycling, urbanization and mobility, and fosters a permanent dialogue with all its stakeholders. The Group reported sales of around €8 billion in 2020, and operates in some 55 countries with 20,600 employees worldwide. Visit [arkema.com](https://www.arkema.com) to learn more.

As part of Arkema's Advanced Materials segment, Arkema-ArrMaz is a global leader in the production of specialty chemical solutions for the crop nutrition, mining, infrastructure and other growing industries worldwide. With more than 50 years of expertise, the company innovates superior chemical technologies designed to optimize process performance, production efficiency and product quality. Our global team works closely with our customers to conduct laboratory and onsite

testing, and recommend customized solutions to meet their unique needs. Visit arrmaz.com to learn more.
